

Hedgehog Class Homework - Summer 2

Thank you for consistently reading with your child - it has been great to see how many children are reading 5 times a week and the progress they are making as a result!

Please keep learning spellings with your child. This term we will focus on developing spelling as this area of Year 1 writing is not as strong as others. A copy of the '100 High Frequency Words' has been attached - Please try to help your child to learn to sight read and spell these words by the end of the year if they cannot already do so.

Homework 1 - Due Thursday 21st June

We are going to be learning about seasonal and daily weather changes in the UK this half term. The first homework task this term is to keep a record of one aspect of weather over a week and present your results.

You could:

- Make a rain gauge and record daily rainfall
- Record wind direction
- Look up weather reports and make your own simplified version
- Draw a picture of the weather you can see through your window each day

Homework 2 - Due Thursday 5th July

Our overall topic for the term is 'What a Wonderful World.' The second homework task of the term is to write to tell me what you think makes the world wonderful. This could be presented in the form of a 5-6 sentences with a picture, a mind map or a poster - or you might think of a different way!
