

Home Learning Grid

Week beginning:	27 th April 2020
Class name:	Stags
Teacher's weekly message:	Hi Stag Class. We hope you had a good week last week and that you are all keeping safe and well. It has been great to see some of you sending in pictures of what you have been up to and lots of Stag Class took part in our Facebook quiz last week too. It has been a lovely, sunny week last week - Make sure you are getting lots of fresh air, stay active and remember the suncream! Here is your learning grid for this week. Have a go at the activities in each task to keep your minds sharp and ready for when we return to school. Take care of yourselves and hopefully we will see you soon, Mr Glenton and Mors Pears

This grid will give you some ideas of activities you can do at home. Try and complete one activity from each section (column) every day (Mon- Fri).

English	Maths	Wider Curriculum	Family Fun
Write a story that is based in the Viking times. Think about the story we read 'The Mystery of Maddie Musgrove'. Could you base your story on the same style of writing?	Roll a dice to make a six-digit number. Do the same to make a five-digit number. Add these numbers together. Complete five calculations.	Go to BBC Bitesize and complete one of the daily lessons (not English or Maths). Try to pick one which will teach you about something you know very little or nothing about!	Work with a member of your family to build a house out of cards. How high can you make your house?
Invent your own monster. Describe its appearance, personality, habitat, habits & likes. Label our monster too.	Times table practice (you could use TT Rockstars if you like). Concentrate on the 6, 12 and 8x tables.	Build a Viking longboat out of materials you may have in the house. Use anything you can to make it look realistic.	How many different words can you make from the letters in the sentence: 'We will all see each other soon'
Do some research on an endangered animal which you like. Create a poster to persuade people to act responsibly to save this species.	Roll a dice to make a six-digit number. Do the same to make a five-digit number. Subtract the five-digit from the six-digit. Complete five calculations.	What do you know about our local area, County Durham? Draw a spider diagram of all the facts you can think of.	Think of a hero in the community who is working hard to help our country through the current situation. Write a thank you letter to them and post it to them if you can.
Go on the website 'The Literacy Shed'. Watch some of the videos of stories on the website. Discuss these with an adult.	Go to BBC Bitesize and complete one of the daily maths lessons. Remember to watch the videos and try and complete the extension activities.	This half term, we would have been exploring why it is good to be you in PSHCE. Design yourself a badge with represents your star qualities.	Build a reading den by using sheets, pillows, blankets and anything else you can find. Snuggle up with a good book!
Write an Acrostic of your name to describe yourself.eg. B - Bound to play football at break. E - Energetic and loves fun. N - Never stops talking or reading.	Find 15% of these numbers: 200 460 520 1200	It is getting warm and the flowers are starting to appear in the garden. Pick three of these (ask a parent first!) and sketch them in pencil. Use shading to give your picture tone.	Create a treasure map in your house or garden for somebody else to follow. Give them clues along the way to finding the 'treasure' at the end of the map.
