

Home Learning Grid

Week beginning:	18 th May 2020
Class name:	Stags
Teacher's weekly message:	Hi Stag Class. We hope you and your families are well and you received your letters from us this week. It has been lovely to get replies already from some of you to tell us what you have been up to and how you are. Below is the learning grid for this week, thank you to William for sending some ideas in which he would like to see on the grids - if you have any other suggestions, please email them into the school and I'll try and include them. There is an anagram challenge on Facebook this week, try and give it a go. Take care and stay safe, Mr Glenton and Mrs Pears.

This grid will give you some ideas of activities you can do at home. Try and complete one activity from each section (column) every day (Mon- Fri).

English	Maths	Wider Curriculum	Family Fun
Play a word game (for example Scrabble, boggle) with your family and take a picture of the final results. Maybe even team up so you can play with a partner.	Weigh some fruit and veg on scales. Can you find out the average weight for each type? (Use the mean by adding the weights up and dividing them by how many objects you have)	Pick your favourite band and design a poster for their next world tour. Find 10 cities and include a map showing their route.	Have a look at the North east bee hunt, the link is below. Lots of information and activities. https://www.nhsn.ncl.ac.uk/activities/the-north-east-bee-hunt
Go to https://www.bbc.co.uk/newsround/news/watch_newsround each day and keep up to date with what is going on in the world.	Go to BBC bitesize and complete three of the maths lessons this week. Read through the information, watch the videos and complete the activities.	This week would have been World Culture Day. Research a country or religion which you do not know much about and present this information any way you would like.	Take part in the anagram challenge this week. Go onto our Facebook page and solve the clues to get each letter. Will you win one of the prizes?
Go to BBC bitesize and complete three of the English lessons this week. Read through the information, watch the videos and complete the activities.	Search in Google for 'maths frame snowballl smash' Click on your year group at the objective tab at the bottom and have fun!!	Design a new poster for your window which says thank you for key workers who are continuing to support our country by working. Make it as colourful and eye-catching as possible.	Young children are finding it difficult because they can't hug and cuddle some of their relatives. Design a toy or teddy for them to make them feel better. Remember to add detailed labels.
Make a list of the ten things that you are looking forward to in your next school/classroom - discuss each point with a 'because' or 'as' to give reasons for your ideas.	Answer these questions by using multiplication. How many seconds in five minutes? How many minutes in 9 hours? How many hours in 25 days? How many months in 25 years?	Birds are starting to nest already in my garden...Can you create a bird box in your garden? You can make these out of household material. 	Ask your parents if you can help cook something new this week. Help your adult to prepare this dish and serve it to your family
How many different words can you think of for said? Write these down & put these into your own sentences.	Tell me three numbers that add together to make 1023. All numbers must be between 300 and 400.	Do some baking with a member of your family - biscuits, cakes, muffins you choose and enjoy!	Use what you have in your garden to invent your own game. Make up some rules and ask an adult to play it with you.
