

# Home Learning Grid

Week beginning:	11 <sup>th</sup> May 2020
Class name:	Caterpillar
Teacher's weekly message:	Hi Caterpillar Class! I hope you are still having lots of fun at home. I would love to see some photos of things that you have been up to. Remember you can email them to <a href="mailto:edmondsley@durhamlearning.net">edmondsley@durhamlearning.net</a> . I have been on some more long walks and have also been doing some reading, I bet you have been reading lots of stories too! I spent a little bit of time washing my car at the weekend, it was so dirty! Miss Miller has been decorating her little boys bedroom and putting some furniture together. Mrs Welsh has been very busy with Ellie and Evie at home, they have been baking, painting, and even making their own dresses! Take care, hope to see you all soon! Mrs Jameson.

English	Maths	Wider Curriculum	Family Fun
Create a reading nook in a corner of your home. You could maybe take your duvet and pillows or some cushions and snuggle up to read a story.	Help to count out the plates at teatime. How many plates will you need?	Dress up! You don't need to have fancy dress outfits, you can use blankets, sheets, dressing gowns. Anything you like!	Have a go at the weekly challenge on Facebook. I would love to see some photos!
Line up 8 small toys. Ask an adult to say three of the toys, once your adult as said 3 of the toys, go and collect the three items that they told you to get, can you remember what they said? Too easy? Ask an adult to say 4 items.	How many bites will it take you to finish a piece of fruit? Have a guess and then count while you eat!	Listen carefully when you are out in the garden, what sounds can you hear? Do you hear birds? Cars? The wind?	Draw around your hand or paint your hand and print it, ask other people in your house if you can draw around their had too. You can cut them out and write the date on them to keep somewhere safe!
Hide 4 items under a blanket. Any items will do but you could use a plastic cup, a pan, a piece of paper and a bottle of water. An adult will lift the blanket and use a metal spoon to tap on one of the items a few times, without peeking, which item do you think was tapped?	Write numbers 1-5 on separate bits of paper, ask an adult to help. Turn the numbers upside down on the floor. Turn 1 number over, what number is it? An adult will then ask you to perform an action that many times, e.g 4 hops, jumps, spins, claps, nods... Repeat until all numbers are turned over.	Ask an adult to put some items in a cardboard box and cut a hole in the top. Put your hand into the box and describe what it feels like. Can you guess what it is? Pull it out and see if you were correct!	Plan where you would like to visit once lockdown is over.
Clap out the syllables in your name. Can you clap the syllables to any other name?	Pick up 3 twigs when you are out walking. Can you put them into size order?	Experiment with quiet and loud sounds. Can you make a quiet sound with your mouth or with an instrument and get louder and louder and then quieter again?	Play a card game, maybe 'snap'!

Hide and seek using positional language. Hide an object in a room, an adult will ask you to hide it either behind something, in front of something, on top of something or underneath something.

Have a go at any of the games on this website  
<https://www.topmarks.co.uk/maths-games/3-5-years/counting>

Learn how to turn on the washing machine or set the microwave. Only do this when an adult tells you that it is ok!
