

Home Learning Grid

Week beginning:	1 st June 2020
Class name:	Rabbits
Teacher's weekly message:	<p>Hello Rabbits, hope you had a lovely half-term; it was definitely a sunny one! I spent lots of time in my garden, planting flowers and painting the fences as well as relaxing and reading. I have also been walking through the woods with Alfie where we were lucky enough to see some wild rabbits running through the long grass and across the path in front of us, it reminded me of you all!</p> <p>Can you guess what Mrs Webb has been doing? More crafting of course! She has been printing onto fabric this week and has made some beautiful floral accessories for her garden, isn't she so clever? She even painted some rocks to add to Eddie the snake, have you added one yet? I'm going to add mine later this week!</p> <p>Don't forget to ask your grown-ups to send us emails of what you've been up to, we look forward to hearing from you! Stay safe and have fun completing this week's activities. Love, Miss Skidmore and Mrs Webb x</p>

This grid will give you some ideas of activities you can do at home. Try and complete one activity from each section (column) every day (Mon-Fri).

English	Maths	Wider Curriculum	Family Fun
Write a story about Eddie the Edmondsley snake! Start of by explaining how he became the Edmondsley snake and write about an adventure he may go on. Does he slither down to Sacriston? Or maybe down to the stream in Congburn woods? What other animals might he meet?	TTRS have teamed up with Guinness World Records. Break your own world record by achieving the highest score on 'Times Tables Rock Stars in one minute! If you wish to enter, you can find all the information you need at: https://ttrockstars.com/page/gwr (you have until June 4th to enter.)	 Use your body or different toys/items to create shadows on the ground. Draw around them and decorate them, what patterns might you make? Can you turn them into something else? Look at the artist Vincent Ball online (with adult permission) for inspiration.	If you haven't already, decorate some rocks to add to Eddie the Edmondsley Snake. Take a walk to school to add your own rock, how long is Eddie now? Can you spot any rocks left by your friends or teachers? You may even decorate rocks for your own garden, or create a family rock snake!
Improve your piece of writing about Eddie the snake. Consider using more impressive vocabulary choices, a range of sentence starters and a range of conjunctions (if, so, but, and, because, when etc).	Find a tin and draw around it 10 times. Draw in the clock face numbers from 1-12 (use a clock to help you). Now draw in different times of half past, quarter to, quarter past and o'clock - write the time underneath in words.	I have spent lots of time walking alongside the river Wear in lockdown. Where could I live? Which rivers are near where you live? Conduct some research to find out about rivers in your local area and around the UK. Which river is the smallest? Which is the largest?	Find an empty jar and put a label on the front 'Things to look forward to'. Use colourful paper if you have any and write down things you'd love to do or places you'd like to visit together when this is all over and put them in your jar!
Two hundred years ago, the Brontë children stitched together brown paper sugar packets, strips of wallpaper and old writing paper to create postage stamp-sized books for their toy soldiers to read. Can you make your own book (the size of a postage stamp) and write your own small book? You can choose to write a story of your own or use a one you know.	Order these times during the day from first to last and draw a picture of what you've been doing at each of these times. 3pm 5:30pm 7am 12:30pm 9pm 9am	The world record for the long jump is currently held by Byron Jones, who recorded a jump of 3.73m. Warm up with 1minute jogging on the spot followed by ten squats. Then see how many jumps it takes for you to reach the same distance. Try again, can you beat your score?	Enjoy a bike ride - If you can, go out on a bike ride with an adult in your family. Enjoy the breeze on your face and look around at the different sights you can see. Don't worry if you don't have a bike, go for a long walk together instead!
Complete an online reading comprehension from Oxford Owl or Twinkl (contact school if you need reminding of the log in details). Otherwise, find a book that you haven't read for a while and read it. Think of 5 comprehension questions using the words who, what, where, why and when. Can you answer them too?	Write these digital times in words using o'clock, half past, quarter past and quarter to. 7:30, 10:00, 8:45, 3:15, 6:45, 12:00, 8:15, 5:30	Thursday 4 th June marks the start of 'Food Safety Week'. Create a poster of food safety rules you should follow when preparing and cooking food, including diagrams.	Follow a new recipe to prepare and cook a meal together, making sure you follow your food safety rules!
	I think that adding together two 3digit odd numbers always makes an even number - am I right? Use your working out to prove it.	Saturday 6 th is Butterfly Education and Awareness Day (BEAD) which an annual event organised to raise awareness about the importance of butterfly conservation. Find out about the life-cycle of a butterfly and think of a way to present this information, you may use a PowerPoint, poster or even rocks like we did for the plant life cycle in Science!	With permission - create a habitat perfect for bees and butterflies. Can you dedicate a small patch or big planter full of wildflowers or nectar-rich flowers to attract them? Many stores have seeds/plants especially for bees and butterflies that don't cost a lot. Plant flowers and place rocks or large stones in sunny corners to encourage basking.
