

Leah Hogarth

I am a co-opted governor and have lived in Durham all my life. I attended both Edmondsley nursery and primary school and am thankful for the opportunity to give back to the school I loved so much.

I am currently an assistant data manager at a secondary school which gives me a helpful insight into the running of a school. I plan to use this experience to help with my role of governor at Edmondsley.

I began as a governor in 2020 and have already learned so much!
